EXTRALOAD

The XL tile backer board is the latest member of the Dukkaboard family. It is a premium quality cement board ideal for over boarding chipboard and timber floors and provides an ideal substrate for all tile finishes including the heaviest of natural stone.

The boards are available in both 1200 x 600 x 6mm and 1200 x 600 x 12mm. We recommend the 6mm for concrete and stable chipboard floors and the 12mm for floors needing extra strengthening and uneven floor boards.

The XL range of boards are supported by a comprehensive list of accessories including specially designed screws for quick and easy fixing, the adhesive for an exceptionally strong bond, a primer for use on newly laid boards and a tungsten carbide tipped cutting knife for rapid and accurate cuts every time.

#### 1 Dukkaboard XL Building Panels

**Solid cement boards for extra load carrying.**  
An extra strong cement fibre board that creates an ideal substrate for tiles and reinforcing floors.

XL Building Panels	Stock No
600 x 1200 x 6mm	5200
600 x 1200 x 12mm	5203
